## INFRASTRUCTURE ENHANCEMENT PROJECTS

### HON. BILL SHUSTER

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Tuesday, February 24, 2009

Mr. SHUSTER. Madam Speaker, I submit for the RECORD a letter to the Honorable NANCY PELOSI, the Honorable JOHN OLVER, and the Honorable DAVE OBEY from myself and Chairwoman CORRINE BROWN regarding infrastructure enhancement projects included in the economic stimulus bill and the potential impact on existing utility infrastructure.

WASHINGTON, DC,  
February 12, 2009.

Hon. NANCY PELOSI,  
Office of the Speaker, H-232, U.S. Capitol,  
Washington, DC.

Hon. JOHN OLVER,  
Chairman, Trans-HUD Subcommittee, Room  
2358-A, Rayburn HOB, Washington, DC.

Hon. DAVE OBEY,  
Chairman, House Appropriations Committee, H-  
218, U.S. Capitol, Washington, DC.

DEAR COLLEAGUES: As the Chairwoman and Ranking Member of the Transportation and Infrastructure Committee Railroads, Pipelines, and Hazardous Materials Subcommittee, we wanted to take this opportunity to bring to your attention a serious issue impacting utility infrastructure and ratepayers.

The economic stimulus bill that we are debating directs billion of dollars toward infrastructure enhancement projects—with a significant portion allocated for highway construction. As is common with highway projects, their construction may require the relocation of existing utility infrastructure located within the existing public right-of-way or adjacent to the right-of-way, including natural gas distribution pipelines and power lines (both overhead and underground). With the substantial increase in federal funding provided by the stimulus package to states, counties and cities for highway projects, it is our understanding that utilities want to make sure that their customers are not asked to absorb major new and unforeseen costs.

As you may know, the current blueprint for how natural gas and electric utilities are reimbursed for these relocation costs is not uniform. Some states have laws or policies that allow for federal highway funds to be used to cover all or a portion of the costs of relocation. However, in many states, utilities are not reimbursed and these costs are ultimately borne by utility ratepayers. These increased costs to ratepayers could potentially negatively impact the goals of the stimulus package by creating a de facto "economic stimulus bill" surcharge in their future rates.

Additionally, pipeline and power line relocation associated with highway construction are often hampered by a lack of coordination and communication between the highway authorities and utilities. This can result in project delays and interruption of utility service. With the large number of projects that will be funded by the stimulus, there is a need for an effective consultative process under which utility companies and highway project managers would discuss and can reach agreement on construction scheduling. Such

a process would allow all parties to discuss the timing of construction and relocation and secure the availability of labor and material so that the projects funded by the stimulus bill can advance expeditiously.

Let's make these taxpayer dollars work effectively by ensuring that highway infrastructure projects not only proceed in a coordinated and efficient manner but also allow utilities to be fairly reimbursed.

We appreciate your attention to this important matter and look forward to working with you to advance the economy of our country while protecting the interests of taxpayers and utility rate payers.

Sincerely,

BILL SHUSTER,  
Member of Congress.  
CORRINE BROWN,  
Member of Congress.

## TRIBUTE TO "BLACK CROSSROADS: THE AFRICAN DIASPORA IN MIAMI"

**HON. KENDRICK B. MEEK**

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

*Tuesday, February 24, 2009*

Mr. MEEK of Florida. Madam Speaker, today I rise to recognize and commemorate the grand opening of the historic exhibition, *Black Crossroads: The African Diaspora in Miami*. The exhibit, which will be on display at the Historical Museum of Southern Florida from March 5, 2009 to January 24, 2010, depicts the diverse groups of the African Diaspora who have come to settle, work and struggle for freedom in Miami since its incorporation in 1896 to the present day.

Celebrating the diversity and richness, *Black Crossroads: The African Diaspora in Miami* explores the enduring presence and impact of African-Americans, Africans, black Caribbeans, and black Hispanics in Miami. The many significant political, economic and cultural contributions are shown through historic photographs, oral histories, memorabilia, film/video, and artifacts. These contributions will be related to black pioneers, families, laborers, communities, and organizations spanning over 100 years of history of black migrations to Miami.

*Black Crossroads: The African Diaspora in Miami* documents an important aspect of Miami's cultural history, and bring this vital information together in one place and at one time for the people of South Florida. I applaud the Historical Museum of Southern Florida for displaying this exhibit for all to see.

I also commend Dr. Joanne Hyppolite, the Chief Curator at the Historical Museum of Southern Florida, for her achievements and successes with the *Black Crossroads: The African Diaspora in Miami* thus far. Dr. Hyppolite has strived to show a clear reflection of what Miami has always been: a meeting point for intersections of many members of the African Diaspora since as far back as the 1800s. The exhibit also shows Miami's importance as a popular southern migration site for blacks from the Upper South, Northern Florida and the Caribbean.

I am pleased to join all those in attendance at the opening of the exhibition in wishing the Historical Museum of Southern Florida and Dr.
